# 2003 Wanted Puzzle Contest

The Search for America's Greatest Skilled Puzzlers

## THE SEARCH IS UNDERWAY!

Help in finding the missing gang member in each puzzle.

Each of the three puzzles below is harboring a different gang member featured on the Wanted! Poster. The fourth gang member is missing without a trace.

Purchase and Assemble all three puzzles. Then mail in the correct answers to the following two questions:

- 1) Which member of the gang is hiding in the puzzle?
- 2) Describe the location of the puzzle where the gang member is hiding.

GOOD LUCK!

**WIN  
UP TO  
\$50,000!**

## CLUED IN

I'd like to comment on Nancy Kramer's letter from a few months back. That she enjoys each and every puzzle, regardless of difficulty level, is truly terrific. However, I can't say that I share her approach when it comes to solving. After 80 years, I'm well aware of my likes and dislikes. While I love to tackle anything tricky, I just don't receive any thrills at all from the simpler stuff. Of course, I understand that you can't tailor your contents to fit everyone's individual tastes...but isn't there anything you can suggest to keep the early pages from going to waste?

Stella Deere, Little Rock, Arkansas

Why, oh why, do so many folks write in demanding only mind-boggling, ultra-complicated brainteasers? When I sit down with the newest issue of *Dell*, I want to relax and forget all about the challenges I've faced working as a nurse in a busy hospital. I'll choose more manageable fare such as Crypt quizzes, Skill-O-Grams, Kriss Krosses, and Picture Mazes over those bothersome Logic Problems and Cross Sums any day.

Louise Griffiths, Caribou, Maine

Gosh, Stella and Louise, it seems that geography isn't the only thing dividing you gals! In fact, the two of you bring up an age-old question again here in our offices. If there's one thing we've learned over the decades, it's that one person's fave may be another person's bane. In hopes of satisfying most solvers, we try to include what we hope to be a well-balanced mix of easy, medium, and hard features in each issue. To add some oomph to the easy crosswords, Stella, why not try these tips others have suggested? : 1. Consult only the Down clues. 2. Discard the grids and use graph paper to create your own diagramlesses. Louise, you may be interested in some of our sister publications like *Dell All Easy Crosswords*, *Easy Fast 'n' Fun Variety Puzzles*, and *Easy Fast 'n' Fun Crosswords*, all currently on sale at your newsstand.

From cover to cover, the June *Dell* was absolutely fantastic! I got a real kick out of Punanagrams, and The Tergle Talks to the Transient Trio was truly...er, terrific! Thanks so much for the many hours of enjoyment you provided. Here's a question, though: Have you ever thought about adding more Bible Crosswords?

Gloria McKinley, Tucson, Arizona

Gracious, Gloria, thanks to your glowing note we're beaming from ear to ear. Your kind words are much appreciated. We certainly hope this month's offerings will be as well received! While we don't foresee adding more Bible Crosswords to this magazine in the near future, we have a hunch you'll go gaga over the puzzle's Collector's Series. Each volume contains 64 pages devoted to your faves! You'll find all the pertinent ordering information on page 21. In the meantime, we hope the one on page 28 will tide you over. Enjoy!

As always, your comments, criticisms, and questions are much appreciated. We rely on your input to keep us at our best! Remember, letters may be edited for space and clarity, and we'll gladly withhold your name if you so desire. Make contact with us at:

# SKILL-O-GRAM

by Gary Maria

Each square above contains one part of a complete drawing. Using a pencil or pen, you are to copy exactly what you see into the diagram below. Use the letter-number combinations as a guide, and draw exactly what is in each box above into the corresponding box below. Start with A-1, drawing in the box where Row A and Column 1 intersect. Then draw in A-2, A-3, etc., and continue right through to the end. The result will be a finished drawing, as skillfully drawn as if by an artist.

The artist's drawing is shown on page 123.

## ARROW MAZE

Starting at the S (start) and following the arrow leading out of that S, see if you can find your way to F (finish) in four minutes or less. When you reach a square that contains an arrow, you **MUST** follow the direction of that arrow, and continue in that direction through the empty boxes until you come to the next arrow. When you reach a square that has two arrows, you may choose either direction in which to continue. In this maze, it's okay to cross your own path.

Solution is on page 128.

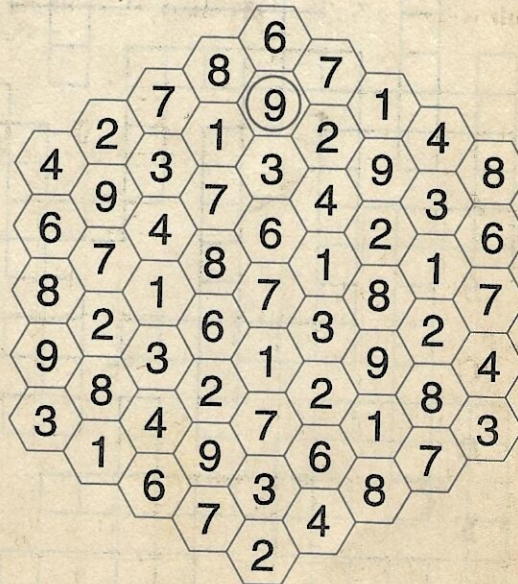

## HEXAGON HUNT

In this diagram of hexagons (six-sided figures), there are 10 "special" hexagons. These 10 are special because the six hexagons surrounding each of them contain numbers that are not only different from one another, but are also different from the number in the "special" center hexagon. We've started you off by drawing a circle in one of the 10 "special" hexagons. Can you find the other 9 in less than 3 minutes?

Note: A hexagon may belong to more than one group, and a "special" hexagon may also be one of the surrounding hexagons in another "special" hexagon group.

Solution is on page 128.

## MAKING CONNECTIONS

Kriss Kross puzzles are solved by fitting the words supplied with each puzzle into their proper places in the diagram. The words are in alphabetical order according to the number of letters. Some of the diagrams have a word or phrase inserted to start you off. The word entered into this diagram is "PADLOCKS." To proceed, look for the 7-letter entry beginning with "L." Continue in this manner until the puzzle is solved.

# LADDERGRAMS

by Irene R. Hayes

First, write the word that fits the first definition into space 1. Then drop one letter and rearrange the remaining letters to form the answer to definition 2. Drop one more letter, rearrange, and get the answer to definition 3. Put the first dropped letter into the box to the left of space 1 and the other dropped letter into the box next to space 3. When you have correctly solved the puzzle, the dropped letters on the left and right, when read down, will spell out related words or a phrase.

Solutions are on page 129.

## DOWN AND OUT

To start, think of the words that fit the definitions and write them on the dashes. A letter of each is given by the theme word **NOMINATE**. When done correctly, the column indicated by the arrow will spell out a related word, reading from top to bottom. Finally, anagram the circled letters to form an 8-letter word that answers the final definition given, that also relates to the theme. Answer is on page 125.

## CIRCLE MATH

The diagram to the right is composed of overlapping circles, each identified by a letter. Each letter has a different number value from 1 through 9. Where some circles overlap, there is a number: This number is the SUM of the values of the letters in the overlapping circles. With these helps, can you figure out the correct number value for each letter?

Answer is on page 125.

# CRYPTOQUIZZES

A Cryptoquiz is a group of related words in a simple substitution code — one set of letters has been substituted for the correct letters of the words in each group. The title and the example of each group will help you identify the words. Look for words that might reveal themselves by their distinctive spelling or by frequently used letters. When you have identified a word, knowing the letters will help you decode the other words in that group, because if A stands for T in one word, it will be the same throughout that group. Each group, though, has a different code.

## QUOTATION PUZZLES

In each puzzle below, you are to fit the letters in each column into the boxes directly above them. The letters may or may not go into the boxes in the same order in which they are given. It is up to you to decide which letter goes into which box above it. Once a letter is used, cross it off the bottom half of the diagram and do not use it again. A black square indicates the end of a word. When the diagrams have been filled in, you will be able to find the completed quotations by reading across the boxes.

## A TO Z FILL-IN

After the words that answer the definitions below are filled into the diagram, you will have used every letter of the alphabet **ONCE** and **ONLY ONCE**. The definitions are listed in alphabetical order according to the first letter of each word you are to fill into the diagram. We have correctly filled in the letters A and Z and, since you will use each letter of the alphabet only once, it's a good idea to cross off each letter as you use it from the list provided.

Solution is on page 125.

## STARGRAM

For some pure anagram fun, find the Mystery Name that lies jumbled in the "words" below. First, rearrange each grouping of capitalized letters to form a common English word made up of two shorter words (for example, "daybreak" or "sunset"). Write the new word on the dashes provided. Then, rearrange the letters marked with a star to spell out a Mystery Name.

# LOGIC PROBLEM 1

## DOGGONE ADOPTIONS

by Terrie Brockmann

After watching a segment on the local news about animal shelters, five friends each decided to adopt a dog. Although all five dogs were mutts, each exhibited the distinctive features of a predominant breed. From this information and the following clues, can you determine each person's dog's name and breed, as well as the order in which the dogs were adopted?

1. Pip wasn't the last dog to find a new home.
2. Diane didn't name her new pal Biff or Hobo.
3. Anisha's new dog was adopted immediately after the poodle, who was taken home at some point after Nix (who isn't Gerry's new pet).
4. The boxer was adopted immediately after Fig but before at least one other dog.
5. The Labrador wasn't the last to be adopted.
6. Diane chose her new dog after Nix was taken home by someone; exactly one other adoption took place between these two adoptions.
7. Nix found his new home at some point after the terrier did, but before Heidi adopted her new dog (who isn't Hobo).
8. The five dogs are Gerry's, Jon's, Biff, the poodle, and the pug.

**Solution is on page 129.**

If you care to use the chart below in solving this Problem, you do so by entering all information obtained from the clues using, perhaps, an X to indicate a definite "no" and a dot to show a definite "yes." Remember: Once you enter a definite "yes" (dot), place a "no" (X) in all the rest of the boxes in each row and column that contains the dot.

## WORD MATCH

To solve this puzzle, add a letter to the front of each group of letters to make it a complete word that associates with a word from the group listed below. Write the associated word on the line following the word you have made. If you have made the correct associations, the initial letters of the completed words first and associated words next, when read from top to bottom, will result in a quotation from Ralph Waldo Emerson.

Answer is on page 125.

9. For most folks, one foot is larger than the other. Which is it most likely to be?  
(a) left (b) right

*Can a woodchuck chuck?*

## MISSING MIDDLES

In the puzzle below, each dash represents the missing middle letter of a common 3-letter word. When all of the dashes are correctly filled in, you will have a truism reading across the middle row of each line. Warning: There is often more than one possible fill-in. For example, P/N could be PAN, PEN, PIN, or PUN, so stay alert.

Answer is on page 125.

## THINKER'S CROSSWORD

Some logical thinking is needed to solve this crossword. For each "definition," you must figure out the relationship between the first pair of words; then, by applying that same relationship to the second pair, identify the missing word and enter it into the diagram. Be careful: More than one word might fit the relationship. The crossing words will let you know if you are on the right track. For example: Hard: soft; left: RIGHT.

Solution is on page 121

The clues in this puzzle are quite straightforward, but you will enter each answer into the grid with **EVERY ONE** of its letters out of its correct position in the original word. For example, the clue "Head covering" might suggest the word **HAT**; you could then enter it into the grid as **ATH** or **THA**, but not as **HTA**, **TAH**, **AHT**, or **HAT** itself. We have entered 1-Across's answer, **TANK**, as a start. Solution is on page 120.

# CRYPTOGRAMS

In Cryptograms, you are given sentences in which one set of letters is substituted for another. The words are in their right order, with a space after each. For example, THE WHITE DOG might be written as RNS LNGRS MPI, R being used for T, N for H, S for E, etc. You can break each code by watching for the frequency of certain letters or the way they are grouped. You know that a single letter is usually A or I, that the word THE occurs very often in our language, as does AND. Try IS, IT, OF, and other common words when you find a group of two letters. Each Cryptogram is in a different code. You'll find the answers on page 127.

## LOGIC PROBLEM 2

### DISAPPEARING TEACHERS

by Susan Zivich

After some subtle (and maybe some not-so-subtle) hints from the school nurse, six teachers from Wright High School decided to shed some of their extra pounds. To make things interesting, they decided that whoever lost the most would have one set of papers graded by each of the other five. At the end of the semester, exactly 70 pounds of teaching staff had disappeared. No two teachers lost the same amount. From this information and the following clues, can you determine each person's full name, teaching subject, and number of pounds lost?

1. Meyer lost exactly two-thirds as many pounds as the history teacher did.
2. Donna (who won the teachers' weight-loss competition) lost exactly eight pounds more than the English teacher did.
3. Cortez's weight loss was somewhere in between Kevin's and the science teacher's.
4. Mr. Patel (whose weight loss totaled seven pounds) lost the least.
5. Tricia and Goodman teach music and math, in some order.
6. Klapp lost exactly five more pounds than Natasha did.
7. Leo (who isn't Klapp) teaches geography.
8. Eric and Romano had losses of 12 and 18 pounds, in some order.
9. The music teacher had an eight-pound weight loss.

**Solution is on page 129.**

**The fill-in chart below was found to be most helpful in solving this Logic Problem.**

first name	last name	subject	pounds lost

# ANACROSTIC 1

by Jacqueline E. Mathews

Your finished Anacrostic will be a quotation which you will have written in the diagram on the opposite page. It will read from left to right, and you will see that there is a black square only at the end of a word. Here's how to go about solving:

**Step One:** Fill in as many of the words in the WORDS column as you can, using the DEFINITIONS at the left.

**Step Two:** Transfer the letters from the WORDS column to the diagram.

**Step Three:** Now you can work back from the diagram to the WORDS list. The letters next to the numbers in the diagram correspond to the lettered definitions. You will find many clues: T-E in the diagram is often THE, so you may try that H in the WORDS list. Short words like OF, TO, AND, and word endings like -ED and -ING give other clues for the WORDS list. One more help: The initial letters of the words in the WORDS column spell out the name of the author and the work quoted. Puzzle 1 has been started for you.

Quotations are on page 128.

Word lists are on page 126.

## SPELLATHON

The idea of Spellathon is to spell as many 5- and 6-letter words as you can by moving along the connecting lines from one letter to another in the diagram below. Do not skip letters. You may come back to a letter and use it more than once in the same word (as in "intent"); but do not stand on a letter, using it twice in direct succession (as in "ballet"). Words beginning with a capital letter, contractions, plurals, hyphenated, obsolete, slang, poetic, archaic, foreign, and dialect words are not allowed.

Our list of 18 5-letter and 11 6-letter words is on page 127.

## REPLAY

In each puzzle below, place the letters of the 9-letter word onto the dashes provided to complete three everyday words. You may not use a letter from the 9-letter word more often than it appears, so it is a good idea to cross off each letter as you use it. Our answers are on page 130.

## CROSS SUMS

The numbers in the black squares in this puzzle refer to the sums of the digits to be filled into the empty spaces. The number below a diagonal line is the sum of the numbers below it. The number above a diagonal line is the sum of the numbers to the right of it. Place one digit (1 to 9, no zeros) in each square.

**IMPORTANT:** No digit is used more than once in any particular digit combination. We have outlined one area in the diagram. If you need help starting the puzzle, the digit combination for that area is listed on page 130. Solution is on page 121.

## PICK AND CHOOSE

To solve Pick and Choose, use all the letters of the 5-letter words in each puzzle below to form five different 5-letter words. Use one letter from each of the given words to form each new word. You may begin your new words with any letter from any of the five words. It is a good idea to cross off each letter in the given words as you use it, since no letter may be used more often than it appears. All 25 given letters of each puzzle will be used. Only everyday English words may be formed.

Our answers, which may be different from yours, are on page 130.

## ANAGRAM QUINTETS

In each of the four groups below, the letters of the words or phrases can be anagrammed to form five new words which all have something in common. For example, An ogre, Rip coat, Reap, L.A. pep, and Pager can be anagrammed into five kinds of fruit: orange, apricot, pear, apple, and grape. See how many you can unscramble.

# SOLICROSS

Trademark

In this game of word solitaire, gain the highest score possible by forming words from your LETTER LIST, placing them in the DIAGRAM so that the words are formed both across (always from the left) and down (always from the top).

1. Write the first seven letters from the LETTER LIST on the first line of the DRAW COLUMN.
2. Form a common English word (no proper nouns) using two or more of these letters.
3. Place the word across or down in the DIAGRAM, either starting or ending in the square indicated by a circle. Do not place letters on any blacked-out squares. Add up the score (see 7 below) and enter it into the SCORE column. In the DRAW column, cross off the letters you used.
4. Copy all unused letters of the DRAW onto the next line, and add enough letters from the LETTER LIST (in sequence) to bring the DRAW up to seven letters.
5. For each DRAW, use some or all of the seven letters to form a new word in the diagram, by either adding one or more letters to an existing word, or setting a new word at right angles to an existing word (either incorporating one of its letters or adding to it), or placing your new word parallel to an existing word (so that the adjoining letters also form words).
6. All letters used in any one DRAW must be used in only one row, either across or down. Only complete words may be formed. Letters adjoining other letters must always form a word, in crossword form.
7. Write your DRAW score in the SCORE column each time you complete one DRAW by adding together all the numbers in the corners of the squares used to form or modify words. If a word has been changed by adding a letter or letters (such as adding "s," "ed," "re," etc.), count the entire word again toward your score. Two or more words formed at the same time are both counted; the square common to both new words is counted with each word. Words within words are not counted.
8. If you cannot use any letters from a given DRAW, cross off all seven letters and subtract 25 points from your score for that DRAW. Bring down the next seven letters from the LETTER LIST and try to form your next word.
9. When the DRAW column is complete, the game is finished, whether or not all the letters from the LETTER LIST have been used. If all the letters in the LETTER LIST have been transferred to the DRAW column, you may continue to form words through the final DRAW, transferring any unused letters to the remaining lines of the DRAW column. If at any time, all the letters from the LETTER LIST are used up to form words, add 50 points to your score and count the game as complete. Your final score is calculated by adding up all the points in the SCORE column.
10. When you **finish** the puzzle, the same word must not appear twice in the diagram.

When you have completed the game, you may play it again by making your own diagram and reversing the order of the letter list.

# BOWL-A-SCORE CHALLENGER

In our bowling game, a strike (worth 20 points) is made by using all the letters in a group to form a 10-letter word. The first letter of each strike is shown. A spare (worth 10 points) is made by using all the letters to form two words. A spare may not be formed by splitting the strike word in two (for example, the strike word "FORECASTER" cannot be split into the spare "FORE" and "CASTER"). Proper nouns may not be used. A perfect score is 300 points.

The words we formed are on page 127.

# LETTER CHOICE

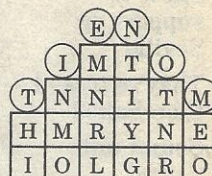

by Henry Kroger

The object of Letter Choice is to use all the letters (except those circled) in the diagram below in spelling out seven everyday words of three or more letters.

**TO SOLVE:** Each word you form **MUST** begin with one of the circled letters heading the columns. The second letter of the word must be from the column headed by the circled letter with which you began the word. The third letter must be chosen from a column **HEADED BY THE SAME LETTER USED AS THE SECOND LETTER** of your word. Continue selecting letters in this fashion. Not all the letters in the diagram have a corresponding circled letter heading a column. Therefore, if you pick a letter that does not head a column, you cannot continue forming that word.

For example: Notice how the word **MONTH** can be formed in the sample diagram. Starting with the circled **M** at the top of the sixth column, find the **O** in that column. Then locate the **N** in the column headed by the **O**, the **T** in the column headed by **N**, and the **H** in the **T** column. Because there is no column headed by the letter **H**, you can go no further (you could not form the word "monthly," for example).

SAMPLE

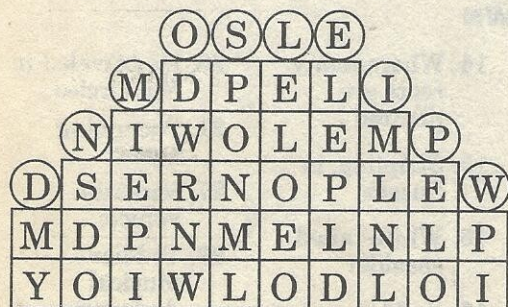

You do not have to keep going until you come to a letter that does not head a column; you may stop at any point. For instance, you could form the word **TIME** (starting with the circled **T**, finding the **I** in the **T** column, the **M** in the **I** column, and the **E** in the **M** column). At this point you could use the **R** in the **E** column to form **TIMER**, or save it for later use.

Since you may use each **UNCIRCLED** letter only once, cross out each letter as you use it. Do **NOT** cross out any of the circled letters as you will need them to start other words and to locate other letters. Once you have crossed out all the letters in a column, however, you may not use the circled letter heading that column for either starting new words or continuing other words. **NOTE:** You will not use every circled letter to start a word, and you may use a circled letter to begin more than one word.

**TO SCORE:** Score 1 point for each letter in the words you form, including the first letter. The more letters used, the better your score. Remember, form everyday words; neither proper nouns nor words of fewer than three letters are allowed. To get a perfect score, all the uncircled letters must be used.

Our answer, with a perfect score of 45 points, is on page 130.

## HI-SCORE

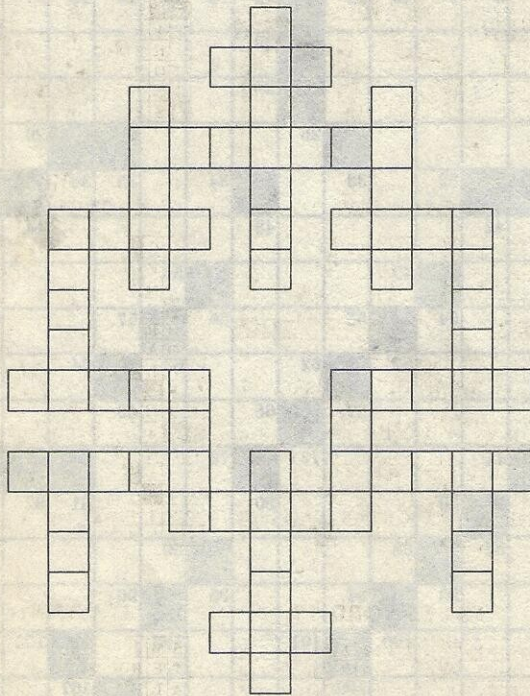

**by Henry Kroger**

Using only the ten letters shown, fill in the diagram by forming words across and down to achieve the highest possible score. Each letter has a given value, so try to use the high-value letters as often as possible. You may repeat letters as often as you wish, even within words. Do not repeat words in the diagram. Foreign and hyphenated words, abbreviations, slang, plurals, and words starting with capital letters are not allowed.

When all the boxes in the diagram have been filled in, add up your score. Count each letter, line by line, going across only. Put the total for each line in the boxes at the right.

**Our solution, with a score of 309, is on page 125.**

*Work:* BEARD ON PASTA  
"Pasta is not a mannerly food to eat.... Short strands...are left hanging from your mouth... when spaghetti is cooked just right.... If you slurp them, so be it. Because the truly best way, the only classical and true way, to eat pasta is with gusto."
2. *Author:* Marvin Kitman  
*Work:* THE SUNDAY SHOW  
"Roosevelt was...blessed with a high-pitched, squeaky...voice.... The word 'charge' which Teddy made famous at San Juan Hill, to Americans today is a verb meaning to wave one's [credit card] as we go up the slippery slope of debt and over-consumption."
3. *Author:* (Bruce) Bliven  
*Work:* (THE) AMERICAN CHARACTER  
"The passion for self-improvement, for a desire to speak French, have good-looking hair, play the saxophone, be brilliant in repartee and a convincing after-dinner speaker, is part of the American myth that evolution means improvement."
4. *Author:* E. B. White  
*Work:* (THE) POINTS OF MY COMPASS  
"Most people think of peace as a state of Nothing Bad Happening, or Nothing Much Happening. Yet if peace is to overtake us and make us the gift of serenity and well-being, it will have to be the state of Something Good Happening."
5. *Author:* (Rodney) Dangerfield  
*Work:* NO RESPECT  
"I tell ya, all I meet is wise guys. A travel agent told me I could spend six nights in Puerto Rico. No days, just nights. I said to him, 'What will I do with myself days?' He said, 'Do whatever you want, just keep out of Puerto Rico.'"

*Work:* ROUGH ROAD HOME  
"If a PTA looks upon itself as the legitimate lobbyist for the rights of children, as an electric-shock supplier to galvanize the community into action, I'm with it. If it's just a kind of filler for a social void, no, thanks."
7. *Author:* (David L.) Goodrich  
*Work:* THE REAL NICK AND NORA  
"A...result of 'The Thin Man's' popularity was that America fell in love with wire-haired terriers. Asta, featured throughout the series, sometimes aided the...sleuthing. His stardom...set off a craze for the breed; he was called the 'best known dog in the nation.'"
8. *Author:* Gordon B. Dobbs  
*Work:* OREGON  
"The lumber industry has been...a victim...of trends developing since the close of the first World War.... Rubber, plastics and light metals...began to replace lumber. Newer homes were designed with fewer rooms and lower ceilings."
9. *Author:* (Louis D.) Brandeis  
*Work:* OHMSTEAD VERSUS U.S.  
"Experience should teach us to be most on our guard to protect liberty when the government's purposes are beneficial. The greatest dangers to liberty lurk in insidious encroachment by men of zeal, well-meaning but without understanding."
10. *Author:* David A. Jason  
*Work:* TIN PAN ALLEY  
"[Irving Berlin said:] You write in a taxi, in the bathtub, or in an elevator. And after the song is finished it may turn out to be very bad, but you sharpen your pencil and try again. A professional songwriter has his mind on the job all the time."

## ARROW MAZE

## HEXAGON HUNT

### LOGIC PROBLEM 1

The last adoptee wasn't the poodle (clue 3), the boxer (clue 4), the Labrador (clue 5), or the terrier (clue 7); it was the pug. The pug's name isn't Pip (clue 1), Fig (clue 4), Nix (clue 6), or Biff (clue 8), so it's Hobo. Since Hobo wasn't adopted by Diane (clue 2), Heidi (clue 7), or Gerry or Jon (clue 8), he was adopted by Anisha. By clue 3, the poodle was adopted fourth. Diane wasn't the first or second adopter (clue 6); she was either the third or fourth and Nix was adopted either first or second. By clue 7, Nix wasn't the first adoptee, so he was second, the terrier was first, and Diane was the fourth person to adopt. Heidi was third (also clue 7). Since Heidi didn't take the boxer (clue 4), she chose the Labrador, and by elimination, the boxer was chosen second. By clue 8, Biff is Heidi's dog. Nix isn't Gerry's dog (clue 3); he's Jon's, and by elimination, Gerry was the first to adopt. By clue 4, Gerry chose Fig, and by elimination, Diane's dog is Pip. In summary:

Anisha, Hobo, pug, fifth  
Diane, Pip, poodle, fourth  
Gerry, Fig, terrier, first  
Heidi, Biff, Labrador, third  
Jon, Nix, boxer, second

### LOGIC PROBLEM 2

By clue 2, Donna lost the most. Patel is a man and shed seven pounds, which was the least (clue 4). By clue 9, the music teacher dropped eight pounds. Two teachers lost 12 and 18 pounds (clue 8). A total of 70 pounds were lost and no two teachers lost the same amount (introduction), so the remaining two amounts total 25 pounds and are nine and 16 pounds, 10 and 15 pounds, or 11 and 14 pounds. 18 pounds, then, was the largest amount lost. By clue 8, Donna is Romano and Eric dropped 12 pounds. The English teacher shed 10 pounds (clue 2). Someone, then, lost 15 pounds. By clue 6, Klapp lost 15 pounds and Natasha shed 10 pounds. Leo teaches geography and isn't Klapp (clue 7). Leo, then, is Patel. By clue 3, Cortez's weight loss is somewhere between Kevin's and the science teacher's. Kevin lost eight or 15 pounds and the science teacher dropped 12, 15, or 18 pounds. Kevin, then, didn't lose 15 pounds; he shed eight pounds and by elimination, Tricia lost 15 pounds. Tricia teaches math and Kevin is Goodman (clue 5). By clue 1, the history teacher lost 18 pounds and Meyer dropped 12 pounds. By elimination, Eric teaches science and Natasha is Cortez. In summary:

Donna Romano, history, 18  
Eric Meyer, science, 12  
Kevin Goodman, music, 8  
Leo Patel, geography, 7  
Natasha Cortez, English, 10  
Tricia Klapp, math, 15

### FIGGERITS

1. Conscience is the fear that someone is watching. 2. If you can't stand the heat, get out of the kitchen. (Harry S. Truman) 3. It is better to be thought a fool than to prove it. 4. A moment of insight can beat a life of experience.

# Get Your High School Diploma At Home!

**First Coast Academy** offers a distance learning program that allows anyone, anywhere to successfully complete their high school requirements and obtain a high school diploma.

You will never be required to set foot in a classroom. You will never be required to disrupt your already busy schedule. But you will be able to work at your own pace, while you receive your lessons at home.

**Career Opportunities** – Many jobs are open only to those with a high school diploma: police officers, child care workers, medical assistants, home health aides, electricians, postal workers ... just to name a few.

**Lifestyle** – Perhaps even more than increased income, a high school diploma gives you a true sense of accomplishment, extra confidence and a feeling of self-worth.

**Income** – The average high school graduate earns an average of \$10,000 more per year than those without diplomas.

- No classroom attendance.
- Study at your own convenience.
- Your teacher is just a phone call away.
- Low monthly payment plan available.
- NOT a GED - You will receive a REAL high school diploma.
